

The Federal Communications Commission

Dear The Federal Communications Commission,

I cannot pay more for my telephone service! You must reject the flat fee proposal that changes how contributions are made to the Universal Service Fund. I am on a fixed income and have the absolute cheapest phone service I can afford and find. It is not fair that for my few calls per month, you want me to pay as much as a high-volume user.

I carry my cell phone in the car just in case of emergency; so I can help me and others on the highway. Luckily, I haven't had to use it yet. And you want to charge me as much as IBM for that?!? Very unfair and not logical. Reject the proposal to move the USF collection system to a flat-fee.

Sincerely,

Robert Osmon
